

# HB 70: Restore Voting Rights to Non-Violent Felons

Some may consider this a controversial idea; however, if one has served their time according to our judicial system, has been allowed back into society, and pay taxes living in society then they should regain their right to vote for representation in the society they now live in. Otherwise it is “taxation without representation” Remember these people are non-violent and have served their time, it’s about time we as a society show a little forgiveness. After all with the current state of government in Kentucky and the USA as a whole we all may be felons some day.
