

# Sudafed Bill/Snot Tax

**Stop SB 50 and HB 79**

**Support HB 80**

**SB 50 has made it out of the Judiciary Committee with a 6-5 vote.**

SB 50 and HB 79 would call for Sudafed and other OTC cold medicines with similar ingredients to be prescription based in an effort to curb meth in KY. This will cause higher healthcare cost on families. However, HB 80 is a reasonable compromise that would allow for a meth offender registry. This is not a perfect solution but it is the one that can preserve the most freedoms for the most people as the legislature will do something, so if they must, it should be this and not punishing all Kentuckians for a fractions of the populations mistakes. For an analysis of a hearing on this last year [CLICK HERE](#) also for more information from a national organization opposing this in KY and other states [CLICK HERE](#)
